

Human Anatomy and Physiology: Fall Trimester

In this class we will be utilizing the textbook, and the (not the junior journal) journal. In addition to this I would like to solidify their vocabulary terms and definitions so there will be extra worksheets in class for that. [I do not have the Journal in my possession yet. Those assignments will be added later. Suffice to say we will be heavily utilizing the journal. Also I may have some of the experiments to be done at home so the kids can present their findings with the class]

Week 1: Text - pg. 10-26 (Stop after the Try this) Journal

Week 2: Text - pg. 26-33 Journal

Week 3: Text - pg. 37-46 (stop before Ligaments) Journal

Week 4: Text - pg. 46-54 Journal

Week 5: Text - pg. 55-61 (stop after Try this) Journal

Week 6: Text - pg. 61-68 Journal

Week 7: Text - pg. 69-77(stop before Living Liver) Journal

Week 8: Text - pg. 77-84 Journal

Week 9: in class: come prepared with your ideas for your assigned section of the “Digestion Theme Park” project
